## Introduction:

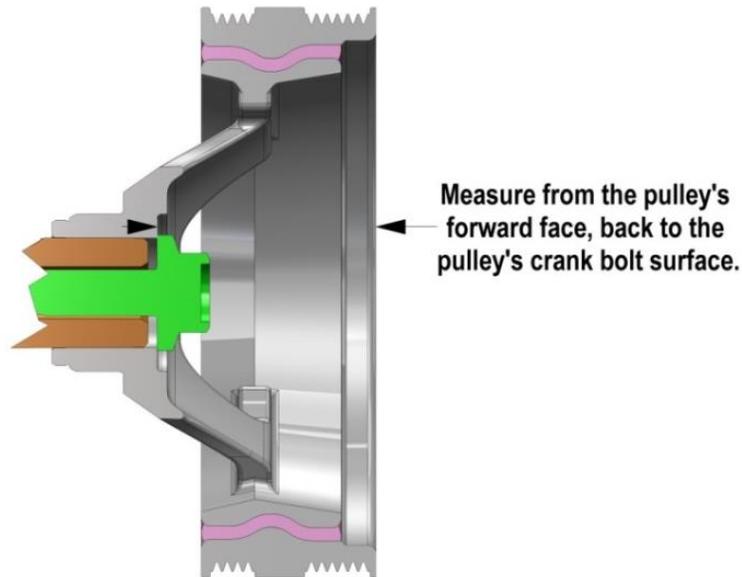

Holley's accessory drive kits offer clean, economical mounting of all LS engine accessories. These brackets look truly at home on any LS engine as if they came from the factory this way. Holley's complete accessory drive systems come with virtually everything needed for installation, from the accessories to the pulleys and even the belt.

This kit can be paired with Holley's low mount A/C bracket kit 20-159 or the engine's original A/C bracket and compressor. This bracket will also work with Holley high mount A/C bracket kit 20-133 or 20-134.

Typically, it is most cost effective to retain the existing crank pulley/water pump and space the bracket and other accessories to match. This bracket does not work with STANDARD belt alignment. If this is the original alignment, the crank pulley and possibly the water pump must be changed. An installation kit (part # 21-4) is REQUIRED for Long belt alignments. No installation kit is required when installing a 20-156 on an application with a MIDDLE belt alignment.

**Note:** All Corvette part application references in this guide are to NON-supercharged LS engines.

## Crank Pulley Belt Alignment Determination:

See the below chart for reference dimensions.

## Overview of Parts Needed (but NOT included with 20-156 bracket kit):

### Components with specific belt alignments

Belt Alignment Group	LS Application (Alignment Specific)	Holley Installation Kit (Alignment Specific)	Crank Pulley (Reference Dimension)		Water Pump (Alignment Specific)	Original Equipment Passenger's side A/C assembly
					GM #	GM # (Numerous)
Standard <u>(will not work with this bracket)</u>	Corvette / CTS-V / G8	N/A	1.5"	37 MM	N/A	<u>Will not work with this bracket</u>
Middle	F-body / GTO	N/A	2.25"	55 MM	19256263	Many LS passenger's side A/C compressors and brackets can be used with this kit, but only in conjunction with the original belt alignment.
Long	Camaro ('10-UP) / Truck (all)	21-4	3"	75 MM	19207665 or any truck WP	

### Components that will work with all belt alignments

	Passenger's Side A/C Bracket
	Holley #
	Low mount: 20-159
	High mount: 20-133 and 20-134 (also requires installation kit 21-2, or 21-3)

**NOTE:** If installing A/C, follow assembly instruction supplied with that bracket before proceeding.

## Water Pump Determination and Associated Idler Assembly:

To determine which water pump type you have, refer to the following illustrations-

Holley Water pump - part # 22-100

LS2 Specific water pump  
Works with **STANDARD**  
belt spacing **ONLY**

GM P/N 89018052  
'05-'07 Corvette  
'06-'07 CTS-V

# TYPE 2

Identifying features:  
Narrow pulley and  
passenger's side outlet

This water pump and respective tensioner  
**WILL NOT WORK** with this bracket.  
It must be replaced with a  
TYPE 1, 4, or 5 water pump.

LS3 Corvette/G8 water pump  
Works with **STANDARD**  
belt spacing **ONLY**

GM P/N 12604630  
'08-UP Corvette  
'08-'09 G8

# TYPE 3

Identifying feature:  
Driver's side outlet

This water pump and respective tensioner  
**WILL NOT WORK** with this bracket.  
It must be replaced with a  
TYPE 1, 4, or 5 water pump.

LS3/L99 Camaro water pump  
Works with **LONG** belt spacing

GM P/N 19207665  
'10-UP Camaro

Identifying feature:  
Long tensioner Bosses

# TYPE 4

Holley Water pump - part # 22-101

TRUCK water pump  
Works with **LONG** belt spacing

GM P/N (Numerous)  
All truck LS based engines

Identifying feature:  
Upward pointing  
outlet

# TYPE 5

Holley Water pump - part # 22-102

## Parts List:

- If used with Long belt alignments, this bracket requires installation kit part # 21-4. For Middle alignments no installation kit is required. This bracket will not work with Standard alignment.

**Parts included with 20-156 bracket kit (see list supplied with installation kit for additional parts):**

PICTURE	QTY	DESCRIPTION	APPLICATION
	1	Alternator (P/N 197-300)	Driver's Side Bracket
	1	P/S Pump (P/N 198-101)	Driver's Side Bracket
	1	Hardline (P/N 198-202)	P/S Pump
	1	Smooth Idler Pulley (P/N 97-150)	Driver's Side Bracket
	1	Belt Tensioner with Ribbed Pulley (P/N 97-151)	Water Pump, Passenger's Side
	1	Pigtails (P/N 197-400)	Alternator
	1	Ribbed Pulley (P/N 97-152)	P/S Pump
	1	Belt, 6 Rib Serpentine	Driver's Side Bracket

PICTURE	QTY	DESCRIPTION	APPLICATION
	1	Driver's Side Bracket Assembly	Alternator & Power Steering Pump
	1	Tensioner spacer	Use with standard alignment tensioner to move to middle belt alignment (NOT used with Long belt alignments)
	1	Step Spacer	Driver's Side Idler Pulley
	1	Socket Head Cap Bolt, M10 x 1.5 x 105	Bracket to Head (NOT used with Long belt alignments)
	1	Socket Head Cap Bolt, M10 x 1.5 x 105	Bottom Alternator Bolt to Block (NOT used with Long belt alignments)
	1	Socket Head Cap Bolt, M10 x 1.5 x 80	Top Alternator Bolt
	3	Flange Head Bolt, M8 x 1.25 x 35	Power Steering Pump Bolts
	1	Flange Head Bolt, M10 x 1.5 x 50	Idler Pulley to Bracket
	2	Flange Head Bolt, M10 x 1.5 x 60	Tensioner to Water Pump (NOT used with Long belt alignments)
	1	Flange Head Bolt, M10 x 1.5 x 90	Bracket to Upper Head (NOT used with Long belt alignments)
	1	Flange Head Bolt, M10 x 1.5 x 100	Bracket to Lower Head (NOT used with Long belt alignments)

## Driver's Side Bracket Installation:

**NOTE:** Torque M8 bolts to 18 ft./lbs. and M10 bolts to 36 ft./lbs.

## Alternator Installation:

**NOTE:** Torque M8 bolts to 18 ft./lbs. and M10 bolts to 36 ft./lbs.

**Helpful hint:** When wiring the alternator, install the included 197-400 plug into the alternator. Next connect the yellow wire to switched voltage that is "on" when the key is in the run position. If the vehicle has a "charge indicator light" the yellow wire can be connected to that circuit.

## P/S Pump/Reservoir Installation:

Install the 198-202 power steering AN adapter/tube, assemble at this time.

### Step One

### Step Two

### Step Three

Torque all bolts

**NOTE:** Torque M8 bolts to 18 ft./lbs. and banjo bolt to 25 ft./lbs.

## P/S and Idler Pulley Installation (position options):

**NOTE:** Torque M8 bolts to 18 ft./lbs. and M10 bolts to 36 ft./lbs.

The P/S pulley must be installed using an installation tool that can be rented at most auto parts stores. Incorrect installation of this pulley may damage the P/S pump internals. When installed, the pulley bore face should be flush with the end of the pump shaft.

**Helpful hint:** Open faced pulley part 97-152 (included) can be installed onto pump before bracket assembly as bolts can be accessed through pulley windows.

## Belt Routing & Length Calculation:

Standard

Alternate routing with AC bracket  
(requires sourced belt)

**HELPFUL HINT:** When installing the belt, route around all the pulleys except the water pump pulley. While fully rotating the tensioner arm, slip the belt on the smooth water pump pulley last.

Use serpentine belt supplied if using ALL included Holley accessories and supplemental parts.

**NOTE:** If you are NOT using all the Holley accessories supplied, or have changed the original crank or any accessory's pulleys, you will have to measure to find the correct belt length.

To acquire this measurement, perform the following:

After all brackets and accessories are installed, route masking tape or string around the belt path. Leave the tensioner in the un-sprung position for this measurement. Mark or cut the tape/string to length and remove from the pulleys. Subtract 1 1/8" (28 mm) from the measured length to compensate for the un-sprung tensioner position. You will need to convert belt length to millimeters if measured in inches (inches X 25.4 = mm). Go to any auto parts store and ask for a 6PK0000 belt with the "0000" being the length in millimeters. For example, if you measured 2493 mm and then subtracted 28 mm, you would get 2465 mm, and the part number would be 6PK2465. Remember, if you miss on size, the driver's side idler can be moved to decrease the required belt length by 1/2".

# Warranty Information

## Holley Performance Products Limited Warranty

All Holley Performance Products Limited Warranties are extended to the original consumer only. This Limited Warranty is not assignable or otherwise transferable. There are no warranties that extend beyond those stated herein. Holley Performance Products offers no other warranties expressed or implied beyond this Limited Warranty.

In the event of an alleged defect in material or workmanship, Holley Performance Products' responsibility is strictly limited to repair or replace the defective product. Holley has no other obligation expressed or implied. Final warranty determination will be in the sole discretion of Holley Performance Products. Holley shall not be responsible for; (a) actual or alleged labor, transportation, or other incidental charges; or (b) actual or alleged consequential or other damages incurred by use of any product of Holley Performance Products.

To initiate the warranty process, the consumer must return the alleged defective product to the place of purchase with a dated receipt and completed applicable warranty claim tag. Warranty claims will be rejected if the date of purchase cannot be established by the consumer. Do not send products directly to Holley Performance Products. Holley Performance Products assumes no responsibility for products sent directly to Holley Performance Products.

This Limited Warranty sets forth specific legal rights. The consumer may have other rights as a result of variations in state laws or provincial laws. This Limited Warranty supersedes all prior warranty statements.

## HOLLEY/FLOWTECH/HOOKER/NOS/WEIAND – NEW PRODUCT

Holley Performance Products warrants its new Holley, Flowtech, Hooker, NOS, and Weiand products to be free from defects in material and workmanship for a period of 90 days from date of purchase.

Holley Performance Products Limited Warranty specifically does not apply to products, which have been (a) modified or altered in any way; (b) subjected to adverse conditions, such as misuse, neglect, accident, improper installation or adjustment, dirt or other contaminants, water, corrosion, or faulty repair; or (c) used in other than those applications recommended by Holley Performance Products. Holley Performance Products also does not warrant, and disclaims all liability for products used in racing activities and/or applications other than those specifically recommended in the current brand catalog.

Holley limits the warranty on Metallic Ceramic Coatings to be free from defects in material and workmanship for a period of 90 days from the date of purchase. This limited coating warranty does not apply to any products which have been subjected to adverse conditions, such as high heat encountered during engine break-in or if used during any racing activity.

## MARINE PRODUCTS

Holley Performance Products warrants its new marine products to be free from defects in material and workmanship for a period of 90 days from date of purchase. For the safety and protection of persons and property, all United States Coast Guard and other marine product safety installation and use requirements and recommendations must be carefully studied and applied. The above recommendations include, but are not limited to the recommendation that the installation, adjustment, and repair of Holley carburetors or other marine products must be performed only by a trained mechanic having adequate marine fuel system experience, and in strict compliance with the applicable Holley installation, maintenance, and other instructions. Failure to follow such requirements and recommendations will void this Holley Marine Limited Warranty, and Holley disclaims any responsibility and/or liability for accidents resulting from such failure.

Holley Performance Products Limited Warranty specifically does not apply to products, which have been (a) modified or altered in any way; (b) subjected to adverse conditions, such as misuse, neglect, accident, improper installation or adjustment, dirt or other contaminants, water, corrosion, or faulty repair; or (c) used in other than those applications recommended by Holley Performance Products. Holley Performance Products also does not warrant, and disclaims all liability for products used in racing activities and/or applications other than those specifically recommended in the current brand catalog.
