

# **2021+ Kia K5 BIG MOUTH Ram Air Installation Guide**

## Kit Contents (Full Kit)

Please review this document before attempting installation.

You will need basic hand tools and 2 hours of installation time.

| Kit Contents   | Qty |
|----------------|-----|
| M5 x 22mm BHCP | 2   |
| M5 lock nut    | 2   |

## **Stock Components Removal**

It is best to google “how to remove bumper” for your particular trim.

## Big Mouth Installation

The top shroud is integrated into the bumper and will come off as a single piece with the bumper. Drill two holes in this top shroud using a  $\frac{1}{4}$ " drill bit, use the BIG MOUTH itself as a template to locate the holes. Using a sharpie and marking through the holes from underneath is a good way to do this.

## Big Mouth Installation

Fasten the BIG MOUTH in place using the supplied M5 hardware. Do not over-torque.

## Final Assembly Review

Review the install and make sure nothing is binding or causing any preload on any parts, loosen and retighten if adjustment is necessary.

Re-assemble the bumper the same way it was removed to complete installation.
