Liability Statement

AFX Motorsports products are designed to best fit user's ATV/UTV under stock conditions. Adding, modifying, or fabricating any factory or aftermarket parts will void any warranty provided by AFX Motorsports and is not recommended. AFX Motorsports products could interfere with other aftermarket accessories. If user has aftermarket products on machine, contact AFX Motorsports to verify that they will work together. Although AFX Motorsports has thousands of satisfied customers, user should be aware that installing bumpers, rock sliders, spare tire carriers, etc. will change the ride of machine and may increase maintenance and part wear. Operating any off-road machine while, or after, consuming alcohol and/or drugs increases risk of bodily harm or death. No warranty or representation is made as to this product's ability to protect user from severe injury or death. AFX Motorsports products, user agrees that should damages occur, AFX Motorsports will not be held responsible for loss of time, use, labor fees, replacement parts, or freight charges. AFX Motorsports, nor any 3rd party, will not be held responsible for any direct, indirect, incidental, special, or consequential damages that result from any product purchased from AFX Motorsports. The total liability of seller to user for all damages, losses, and causes of action, if any, shall not exceed the total purchase price paid for the product that gave rise to the claim. AFX Motorsports will warranty only parts provided by AFX Motorsports. Any damage or problems with OEM housings, bearings, seals, or other manufacturers' products will not be covered by AFX Motorsports. AFX Motorsports parts and products are not warrantied if item was not installed properly, misused, or modified.

1

Driver Side Front Rockslider: Align the rockslider to the plastic of the vehicle, and look for the point marks on the plastic to match witht the holes of the sliders so you can drill 3 holes for the front rocksliders.

MOTORSPORTS

Once you have the holes drilled, adjust the slider with washers and nuts provided.

Remove the rivet/bolt underneath and use the 6mm x 20mm bolt to adjust the slider underneath the machine on the empty hole. (Place the slider between chassis tube and the plastic skidplate.

5 Adjust the slider on the side with washers and nuts provided (2 holes for 2 bolts on side).

MOTORSPORTS

Repeat step 1 to 5 for the passenger side.
