Installation Instructions

Under Seat Storage
Ram 1500 Crew Cab (2019-2023)

FIT-USS001

STEP 1: Lift up factory rear seat and clear out any loose items/debris. The factory divider will remain folded down for storage tray installation.

STEP 2: Install the provided Velcro strap through the slot in the storage tray. For ease of installation in the next steps, ensure the strap is installed in the same orientation as the picture above.

STEP 3: Set the storage tray in place centering between the seat posts and resting on top of the factory floor mats.

STEP 4: Attach the Velcro strap to the nearest vehicle seat belt assembly. Pull the strap tight securing the storage tray in place.
