

# VLC/VLK-55C

Dakota Digital Clock Installation  
For 1955-'56 Chevy Speaker Clocks

### VLK Clock Includes:

**CAT5 Cable**  
(Connects Clock to VHX Control Box)

### Installation Manuals

**1/8" Clamping Backplate**

**VLK Clock**

**1/4" Spacer Subpanel**

**2X 6-32 x .875" Mounting Screws**

### VLC Clock includes:

**VLC Clock**

**Clamping Backplate**

**4X 4-24 x 5/8" Mounting Screws**

**CAT5 Cable**  
(Connects Clock to VHX Control Box)

**VLC Power Harness**

## VLK Installation

1. Remove the speaker bezel from the car. Set the 1/4" thick Spacer Subpanel on the back of the clock, and slide them into the front of the speaker as shown.
2. Flip the bezel over. Align the 1/8" thin Clamping Backplate on the back so the connector is at the top, then thread the provided screws into the two locations shown, clamping the system together.

4. Connect the CAT5 cable to the clock. Route this cable back to the control box.

## VLC Installation

1. Remove the speaker bezel from the car and place the VLC clock in the speaker bezel from the front. Place the clamping back plate over the rear of the VLC, and secure the clock using the four supplied screws.
2. Connect the CAT5 cable and the VLC power harness to the clock. Route the other ends back to the control box.

Reinstall the speaker bezel in to the dash and refer to the Operating Manual to complete the clock setup.

### VLK shown mounted
