SIXFIVE SERIES WARRANTY

Memphis Car Audio offers a limited warranty on Memphis Car Audio products on the following terms:

Length of Warranty

SixFive Series Component Speakers – 2 Year

Ask your installing dealer about warranty extensions that may be available.

What Is Covered

This warranty applies only to Memphis Car Audio products sold to consumers by Authorized Memphis Car Audio Dealers in the United States of America or its possessions.

Who Is Covered

This warranty covers only the original purchaser of Memphis Car Audio product purchased from an Authorized Memphis Car Audio Dealer in the United States. In order to receive service, the purchaser must provide Memphis Car Audio with a copy of the receipt stating the consumer name, dealer name, product purchased, and date of purchase. Products found to be defective during the warranty period will be repaired or replaced (with a product deemed to be equivalent) at Memphis Car Audio's discretion.

What Is Not Covered

1. Damage caused by accident, abuse, improper operation or installation, water, theft, shipping.
2. Any cost or expense related to the removal or re installation of product.
3. Service performed by anyone other than Memphis Car Audio.
4. Any product which has had the serial number defaced, altered, or removed.
5. Subsequent damage to other components.
6. Any product purchased outside the US.
7. Any product not purchased from an authorized Memphis Car Audio Dealer.

Limit on Implied Warranties

Any implied warranties including warranties of fitness for use and merchantability are limited in duration to the period of the express warranty set forth above. Some states do not allow limitations on the length of an implied warranty, so this limitation may not apply. No person is authorized to assume for Memphis Car Audio any other liability in connection with the sale of the product.

EU Warranty

This product meets the current EU warranty requirements. See your Authorized dealer for details.

How To Obtain Service

Contact the Authorized Memphis Car Audio Dealer you purchased this product from.
If you need further assistance, call 1-800-489-2300 for Memphis Car Audio's Customer Service.

YOU MUST OBTAIN A RETURN AUTHORIZATION (RA#) TO RETURN ANY PRODUCT TO MEMPHIS CAR AUDIO'S WARRANTY FACILITY. NO PRODUCT WILL BE ACCEPTED WITHOUT THIS RETURN AUTHORIZATION!

You are responsible for shipment of product to Memphis Car Audio. Repaired and replaced product will be returned freight prepaid.

Installation

Prior to setting up your audio system, disconnecting the negative battery terminal from your vehicle is advised. Prior to cutting or drilling screws, please take time to check clearances on both sides of the mounting surface. Be mindful of any potential obstacles such as window tracks and motors. Some vehicles are not symmetrical making it imperative to double check both sides of the vehicle.

Crossover Network

Always mount your crossovers in a location free from moisture and away from moving parts. Crossovers should not be mounted inside door compartments if possible as doors are not always watertight and moisture may damage your crossover. Your Crossover must be connected as shown in this manual, failure to follow these connections may void your warranty and potentially damage your system and vehicle. Failure to properly install the crossovers may void your warranty. If you are uncomfortable with any of the installation steps it is advised that you contact your local Memphis Audio dealer.

Speaker Installation

Sixfive Series coaxial speakers are designed to elevate your audio system to new heights. The flawless sound reproduction from our SixFive Series is unmatched. The dual layer composite fiber material used in our cones is extremely light weight and rigid allowing for exceptionally accurate and powerful bass response. The silk dome tweeter centered in the swivel mount housing produces studio quality highs that bring your music to life. Speakers are designed to elevate your audio system beyond your expectations.

SIXFIVE SERIES COAXIAL WIRING

Crossover Adjustments

VIV60V2 Crossovers use switches to adjust a variety of features allowing the user to dial in the perfect sound for their audio system.

1 Tweeter Adj. +/-3 dB Tweeter Adjustment
