Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning / jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N® air filter seals properly.

### INSTALLATION:

1. Remove the stock air filter.
2. Clean the air filter sealing surface. Fig 1
3. Install K&N filter into airbox with tabs facing down. Fig 2 & 3

**NOTE: Once filter is installed, tabs on filter will be on both sides of cradle in airbox.**

4. Tighten hose clamp and then place airbox lid on airbox and refasten clips. Fig 4

**THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.**
