

Steeda Focus ST/RS Clutch Spring and Perch Kit

Installation Instructions for Part #: 555-7031

1. Park your car on a flat surface and engage the emergency brake.
2. Depress the clutch pedal and remove the factory clutch spring assembly by unseating it from the bracket it is seated in. It may be easiest to push up on the lower spring bucket and push the assembly towards the center console. See Figure 1 for reference.
3. Install the Steeda clutch spring assembly in reverse order.
